Art Unit: 2111

1. The examiner acknowledges the cancellation of claims 20-26 by the amendment filed on 3/14/06. Claims 18 and 19 are presented for examination. The allowability of claims 18 and 19 in the last office action is withdrawn in view of the new ground of rejection.
2. The proposed changes to page 1 of the Specification is not in accordance with 37 CFR 1.173(b)(1). The changes to the Specification, other than to the claims must be made by submission of the entire text of an added or written paragraph, including markings pursuant to paragraphs (d)(1)-(2) of 37 CFR 1.173. Furthermore, in the proposed amendment at page 1, column 1, applicant should insert Patent No. US RE38,428 E after "reissue Application No. 10/006,939". Moreover, the specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.
3. The amendment to the abstract is improper. It should be on a single page using BRACKETS not cross-through. See 37 CFR 1.173(d)(1).
4. Claims 18 and 19 filed on 3/14/06 do not comply with 37 CFR 1.173(d)(2). The claims are newly added in the reissue application and the changes must be made accordingly, i.e., all text must be underlined.
5. The Reissue Declaration is defective. It must include the statement that all errors being corrected in the reissue application up to the time of filing of the oath or declaration with any deceptive intention on the part of the applicant. See 37 CFR 1.175(a)(2).

6. Claims 18 and 19 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. Furthermore, claims 18 and 19 are rejected under 35 U.S.C. 251 because these are broadened claims but filed after 2 years of original patent issued which is improper. See 4th paragraph of 35 U.S.C. 251.

7. If applicants are aware of any prior art better than those are of record, they are required to bring the prior art to the attention of the examiner. Applicants are also reminded that each individual associated with the filing and prosecution of a patent application has a duty of candor and good faith in dealing with the Office, which includes a duty to disclose to the Office all information known to that individual to be material to patentability as defined in 37 CFR 1.56.
